3A SUPREME

DESCRIPTION

Polishing agent for marble, granite, and artificial stone.

INSTRUCTIONS FOR USE

- Uneven floors and/or gaps or deeply scratched floors must be grinded/polished before by using diamond abrasives. Usually grinded/polished to #1000 and above.
- For stone surfaces with good basic conditions, this product can be used directly.
- Shake the container before each use.
- The surface must be clean, dry and free of any coating.
- Pour a small amount on the stone surface, about 15ml/square meter.
- Use a single-disc polishing machine with steel wool pad to polish. Immediately pass over the machine, left to right and up and down continuously, working 1 to 3 square meters (30-40 square feet), until it is completely dry and bright.
- If necessary, repeat steps 5-6 until the stone surface reaches the required glossiness.

FEATURES

- Quickly reveal gloss
- Good film forming properties
- Polymer wear-resistant materials improve surface hardness to meet the needs of high-wear application scenarios
