

STONE POLISHING PASTE

DESCRIPTION

A polishing paste for marble, granite, artificial stone, concrete and ceramic.

INSTRUCTIONS FOR USE

- Uneven floors and/or gaps or deeply scratched floors must be grinded/polished before by using diamond abrasives. Usually grinded/polished to #1000 and above.
- For stone surfaces with good basic conditions, this product can be used directly.
- **Use a stick to stir it evenly before each use.**
- The surface must be clean, dry and free of any coating.
- Pour a small amount on the stone surface, about 5g-10g/square meter.
- Use a single-disc polishing machine with soft white pad to polish. Immediately pass over the machine, left to right and up and down continuously, working 1 to 3 square meters (30-40 square feet), until it is completely dry and bright.
- If necessary, repeat steps 5-6 until the stone surface reaches the required glossiness.

FEATURES

- High concentration power
- Strong filling power
- High efficiency

STORAGE AND SAFETY

- The storage temperature should be higher than 0°C and lower than 40°C.
- Avoid contact with eyes. If it accidentally enters eyes, please rinse with water immediately.
- Do not take orally, please store in a cool, dry place out of reach of children.
