

GARAGE&FACTORY FLOOR CLEANER

DESCRIPTION

Suitable for cleaning and maintenance of garage and factory floors. It is especially suitable for the daily maintenance of concrete cured floors, emery wear-resistant floors, and inorganic terrazzo floors that have poor curing effects.

INSTRUCTIONS FOR USE

- Add this product to the water tank of the cleaning machine according to the usage ratio of 1:100, and perform routine cleaning and maintenance of garages and factory buildings.
- After cleaning, there is no need to use clean water, just air dry it directly.
- To ensure optimal performance and longevity of the flooring system, regular maintenance and hardening procedures must be consistently implemented. Adherence to the prescribed maintenance will yield progressively enhanced results, ultimately achieving the desired surface quality and durability over an extended service period.

FEATURES

- Quickly removes stains
- No water marks
- Long-lasting protection
- Mild formula

STORAGE AND SAFETY

- The storage temperature should be above 0 degrees Celsius and below 45 degrees Celsius.
- No contact with skin/eyes, protective measures recommended.
- Do not take orally, please store in a cool, dry place out of reach of children.

WARRANTY

This data sheet is an information document compiled in good faith. It is correct based on our experience, but no warranty is given. The application, use or processing of the product is beyond our control and should be tested for suitability and therefore at your own risk. In no event shall we be liable to the customer or any other person for any incidental or consequential damages, however caused.
