

ODOR ELIMINATOR

DESCRIPTION

Dedicated to the odour generated by indoor decoration, paint, adhesives, food waste, etc. in homes, offices, hotels, new cars, hospitals, shopping malls, refuse collection points, etc.

INSTRUCTIONS FOR USE

- Preparation: Dilute the product using deionized water or potable water prior to use.
- The diluted solution should be used within 30 days to ensure optimal performance.
- **For furniture/new vehicles:** Mix this product and water in a ratio of 1:5. Apply evenly using a clean cloth, repeating 1-3 times as needed. Allow 2-3 days between applications for best results.
- **Air Purification & Odor Neutralization:** Mix this product and water in a ratio of 1:20 to 1:50. Utilize high-pressure or compressed air atomization equipment for effective dispersion.
- The recommended dilution ratios are for reference only. Actual usage may vary depending on factors such as odor concentration, ambient temperature, particle size of atomization, and equipment type. Adjustments should be made based on on-site conditions and testing.
- For optimal results, always follow the recommended procedures and adjust parameters according to specific application requirements.

STORAGE AND SAFETY

- The storage temperature should be above 0 degrees Celsius and below 45 degrees Celsius.
- No contact with skin/eyes, protective measures recommended.
- Do not take orally, please store in a cool, dry place out of reach of children.

WARRANTY

This data sheet is an information document compiled in good faith. It is correct based on our experience, but no warranty is given. The application, use or processing of the product is beyond our control and should be tested for suitability and therefore at your own risk. In no event shall we be liable to the customer or any other person for any incidental or consequential damages, however caused.

FEATURES

- Natural plant extracts
- Thorough decomposition of odour
